

AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the application:

1-3. Cancelled.

4. (Previously Presented) A method of inhibiting influenza virus replication comprising administering to a subject having an influenza infection an influenza virus inhibiting amount of resveratrol.

5. (Previously Presented) The method of claim 4 wherein the subject is a human and the influenza virus is human influenza virus.

6. (Previously Presented) The method of claim 4 wherein the influenza infection is a veterinary virus infection and the subject is a veterinary animal.

7. (Previously Presented) A method of treating an influenza virus infection comprising administering to a subject having an influenza infection an effective amount of resveratrol.

8. (Previously Presented) The method of claim 7 wherein the subject is a human and the influenza virus is human influenza virus.

9. (Previously Presented) The method of claim 7 wherein the influenza infection is a veterinary virus infection and the subject is a veterinary animal.

10-12. (Cancelled).

13. (New) A method of non-reversably inhibiting influenza virus replication comprising administering to a subject having an influenza infection an influenza virus inhibiting amount of resveratrol.

14. (New) The method of claim 13 wherein the subject is a human and the influenza virus is human influenza virus.

15. (New) The method of claim 13 wherein the influenza infection is a veterinary virus infection and the subject is a veterinary animal.

16. (New) A method of treating an influenza virus infection comprising administering to a subject having an influenza infection an effective amount of resveratrol, whereby replication of said virus is non-reversably inhibited.

17. (New) The method of claim 16 wherein the subject is a human and the influenza virus is human influenza virus.

18. (New) The method of claim 16 wherein the influenza infection is a veterinary virus infection and the subject is a veterinary animal.
